Brand Guidelines

How Lingo looks, sounds and feels

Our voice

Our voice is clear, warm and confident. We speak like a knowledgeable friend: never stiff, never flippant. Short sentences. Everyday words. One idea at a time.

Colour

The Lingo green anchors every layout. Mint is reserved for primary actions and moments of delight. Keep plenty of white space so the product feels calm.

Typography

DM Sans is used for Latin text and Noto Sans Thai for Thai. Headlines use a medium weight with tight letter spacing; body text stays comfortably readable at 14 to 16 pixels.
